Miscellaneous

Video Games : I love all the stories that can be told by them, their creativity, their universes and mostly the way they are created and the possibilities hidden behind them.

Information Technology : I have an interest in websites and the way they are created. I like to get the inspiration by the variety of websites and discover news ways to develop one.

Job Objective

I am a third-year bachelor student in computer science at University of Savoy, Annecy – France. Developing my abilities and knowledge in the domain of the IT is something I would like to continue even after my studies. I am patient, can adapt to the situations and eager to provide your company with the best up-to-date technologies and user-friendly websites or applications.
